www.linkedin.com/in/zanele-mahlangu-652a3b175

SKILLS

- Programming:**
 - Python, Java, HTML, JavaScript, SQL, C#, C++, SAS, Excel, CSS, Bootstrap, node.js, typescript, Jira
- Version Control:**
 - Git
- Tools:**
 - Apache Maven, JUnit

EDUCATION

Wethinkcode_
Higher Certificate Systems Development

University Of Johannesburg
Bcom Brand Strategist & Communications

St. Michaels School For Girls
Matric

COURSES

- Data Science and Machine learning -Udemy
- 100 days of code Python Bootcamp - Udemy
- Java Programming - Udemy

PROJECTS

Asambe - Lift Sharing App
Market Place - Web App
Loadshedding Web App

PROFILE

Passionate and dedicated Software Engineer with a strong enthusiasm for coding and adept problem-solving skills. Proficient in a variety of programming languages including Python, Java, HTML, JavaScript, C#, C++, and SQL. Backed by a solid educational foundation in Software Development with a focus on achieving NQF 5 certification. Demonstrated ability to coordinate social media initiatives and provide valuable support in software development projects. An eager contributor, poised to apply technical expertise to drive innovation in projects.

WORK EXPERIENCE

Junior Software Developer

Molefe Tech

2022-2023

- Led the design efforts for various client projects, utilizing Figma to create intuitive and visually appealing user interfaces.
- Spearheaded the development of a user management panel tailored for guides and administrators, employing React to ensure a responsive and efficient solution.
- Created comprehensive wireframes and visual designs for both the mobile app and admin panel, contributing to a cohesive and user-friendly experience.
- Collaborated with cross-functional teams to gather requirements and translate them into effective design solutions.
- Actively participated in project planning and implementation, ensuring alignment with client expectations and project timelines

Full Stack Developer - Freelance

Tsebo Solutions Group

- Conceptualized and built InterX, a groundbreaking web-based initiative that centralizes essential functionalities, significantly improving workflow efficiency.
- Designed a visually appealing and user-friendly UI using Next.js and TailwindCSS, ensuring a seamless and enjoyable user experience.
- Implemented an efficient data schema, utilizing Firebase for robust data management, contributing to the project's scalability and performance.
- Developed backend logic and APIs to facilitate seamless data writing, enhancing overall system functionality and responsiveness.
- Played a key role in enhancing collaboration, streamlining operations, and optimizing data management processes for increased productivity.
- Demonstrated a commitment to mastering Full Stack Developer skills, continuously expanding expertise in web development technologies and methodologies.
- Successfully contributed to the evolution of InterX, addressing user needs and incorporating feedback for continuous improvement.
